

CodeHaus Design System — v1.0 Preview

Rendered directly from frontend/docs/design-system.md for visual sign-off. The frame below reproduces the actual token values, spacing, and component specs described in the doc — it is not a mockup of new work, it's the doc made visible.

⚠ Open --
question: primary

in index.css

is currently
near-black (

oklch(0.205
0 0)

), not
brand #2563EB
blue

. This preview shows the intended
brand blue — the swatch below is
marked. Confirm before this
becomes the implementation
target.

Color Palette

Canonical brand hex values. Marked swatch is the flagged discrepancy above.

Background

#F0F8FF

--background

Surface

#FFFFFF

--card

Primary

#2563EB

--primary (currently mismatched)

Primary Hover

#1D4ED8

--primary-hover (new)

Text

#111827

--foreground

Secondary Text

#6B7280

--muted-foreground

Border

#E5E7EB

--border / --input

Success

#16A34A

--success (new)

Warning

#F59E0B

--warning (new)

Danger

#DC2626

--destructive

Info

#0EA5E9

--info (new)

Typography — Inter

Rendered here in a system-UI fallback stack (labeled honestly — this preview does not embed the Inter font file). Production must self-host Inter per Developer Handoff Notes §6.

Spacing (8pt system, 4px base)

Every layout gap is selected from this scale — no arbitrary pixel values.

space-1

4px — icon/label gap

space-2

8px — badge padding

space-3

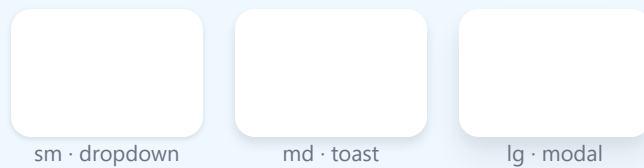

12px — compact card padding

space-4		16px — default card padding
space-6		24px — section spacing
space-8		32px — page margin (desktop)
space-16		64px — empty-state padding

Radius

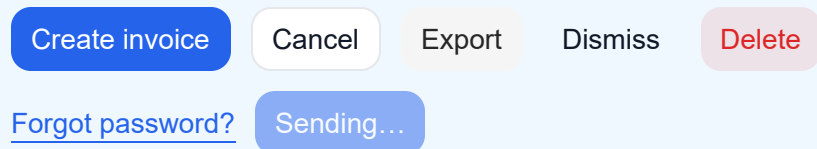

Elevation

Component Library

Live-rendered from the specs in design-system.md §2. Hover/focus states are real — try tabbing to a button.

EMPTY STATE

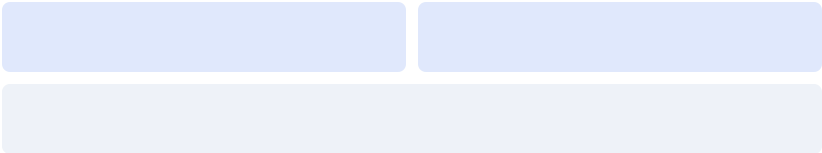

No clients yet

Add your first client to start tracking projects and invoices.

Abstracted layout blocks per module (§3) — not full mockups, just the region structure each page follows.

dashboard-admin
4 metric cards, activity table + deadlines panel

dashboard-client
2 summary cards, project status table

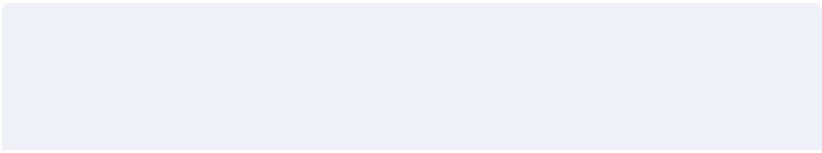

clients
Toolbar + filter row, full-width table

invoices
Same table-first pattern as clients

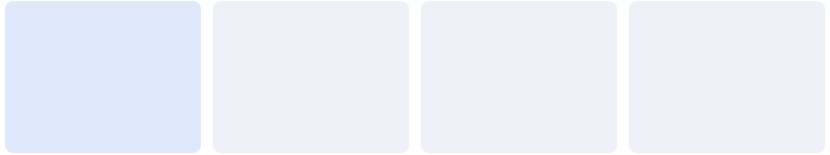

quotations
Table-first, convert-to-invoice action

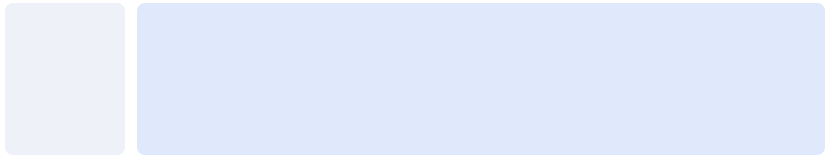

payments

Table (admin) or centered form (client)

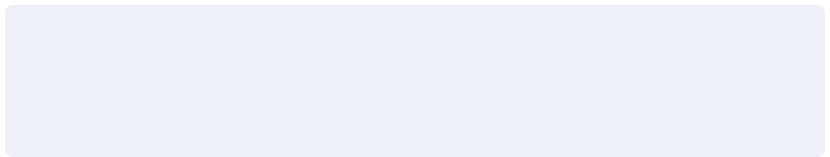

projects

Table / card-grid toggle view

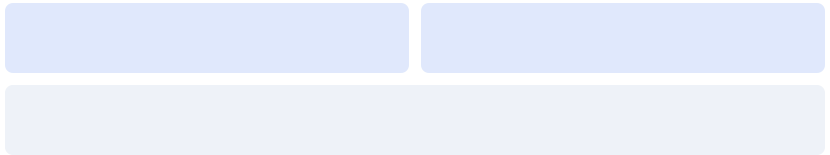

messaging

Two-pane: conversation list + thread

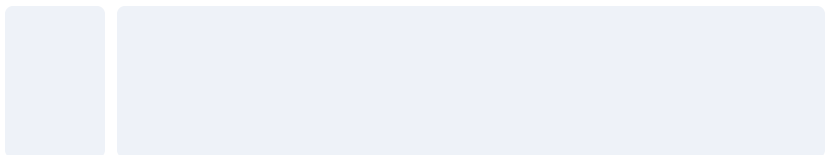

notifications

Single-column list, 640px max-width

reports

2 chart cards + data table

settings

Vertical sub-nav + form cards

support

Ticket table, drawer with thread

auth

Centered card, sidebar-free

Accessibility — contrast (WCAG 2.1 AA)

Pairing	Ratio	Result
Text on Background/Surface	17.7:1	PASS — AA + AAA, all sizes
Primary on white (text use)	5.17:1	PASS — AA normal text
Secondary Text on white	4.83:1	PASS — marginal, don't go below 14px
Danger on white	4.83:1	PASS
Success on white (body text)	3.30:1	FAIL — icons/borders only, use tinted badge bg for text
Warning on white (body text)	2.15:1	FAIL — use #92400E for text
Info on white (body text)	2.77:1	FAIL — use #0369A1 for text
